

Tele-View® USB Endoscope/Gastroscope

Computer Not Included

Features:

- » Quick & Easy Endoscopy
- » High Resolution with Super Bright LED's
- » Display on Computers or Tablets*
- » Air, Water & Working Channels
- » No Processor or Light Processor Needed
- » Easily Record Video to Hard Drive
- » Available in 1.0m, 1.5m and 3.0m Lengths
 - Custom Lengths Available
- » Weighs only 2lbs. (1 kilo)

The Tele-View USB Video Endoscope/Gastroscope are simple endoscope systems that are quick and easy to use. The scopes are high resolution, light weight (2 lbs/1 kilo) and work with Computers or Tablets! Just install the software on your computer and attach the USB connector to view the endoscope procedure on the computer screen! Easily record the procedure to the computer's hard drive. With this innovative design, there is no need for a processor, light processor, special monitor or a storage rack. The Tele-View Endoscope/Gastroscope is excellent for mobile or clinic endoscopy.*

The Tele-View USB Endoscopes come in 1.0m, 1.5m and 3.0m lengths with 8.7mm, 9.8mm or 12.6mm diameters. The insertion tube includes a high resolution camera sensor, super-bright LED lights, a working channel, an irrigation channel to clean the lens and an air-water channel for lavage or insufflation. A portable rechargeable air-water pump is sold separately. Now you can quickly and easily complete endoscopic procedures without the hassles and expenses of complicated equipment!

**Mac computers need to run Parallels software*

3m USB Gastroscope In Use

**TELE-VIEW® USB
ENDOSCOPE/GASTROSCOPE**

Endoscopes and Gastrosopes:

For Small Animal Gastroscopy 7 pounds and Above

- TV-570 1.0 Meter with 8.7mm Diameter
- TV-573 1.5 Meter with 8.7mm Diameter
